

Regional Secretary guide

You run the mapping for your region: invite District Chairmen, follow progress, review submissions and download the results.

Website: gnatashanti.rootabytes.com/admin

1 Sign in

Go to gnatashanti.rootabytes.com/admin and sign in with your email or phone number. The first time, add your email and choose your own password.

2 Invite District Chairmen

Settings > Share on WhatsApp posts one message, with the link and registration key, to your District Chairmen's group.

3 Follow progress

Overview shows live totals and the political districts not yet covered. Districts lists every district and its status. Tap Remind to send a WhatsApp or SMS reminder.

4 Review submissions

Open a submitted district to check its locals and workplaces. Tap Approve district, or Return for correction with a short note the chairman will see.

5 Access codes

Access codes lists every code. Send one by WhatsApp or SMS, read it out on a call, or Print code slips for a meeting. Reset a code if the wrong person has it.

6 Download the results

Downloads gives Excel, CSV and a PDF report, always built from the latest data.

7 Structure and Activity

Structure shows the full tree: districts, locals and workplaces. Activity shows who changed what, and when.

Good to know

- Every Send button opens your own WhatsApp or SMS with the message ready. The system has no messaging provider.
- Downloads contain names and phone numbers. Keep them within GNAT.
- Forgot your password? Ask the super admin for a new temporary one.
